Preparing for the Exam

American Board of Medical Microbiology
EXAMINATION PREPARATION SUGGESTIONS

Past examinees have identified the following activities as beneficial for examination preparation. These activities are NOT meant to be comprehensive guides to the examination and are not endorsed by the ABMM.

- Studying medical microbiology textbooks and reference manuals such as those listed in the “Suggested References” list below.
- Reviewing medical microbiology case studies and reports from various sources (journals, textbooks, and Web sites)
- Reviewing the Morbidity and Mortality Weekly Report (MMWR)
- Subscribing to the Question of the Day Medical Microbiology listserv at http://pathquestions.com/micro. Note: The questions presented through this listserv are designed to address all areas of medical microbiology and are not specifically targeted to those preparing for the ABMM examination.

SUGGESTED REFERENCES

The following references are NOT meant to be comprehensive guides to the examination but have been suggested by the ABMM.
